WaterPEX® Fast Packs

Watts Fast Packs are uniquely designed with the repair plumber and retrofit contractor in mind. Each fast pack is pre-cut to 10' lengths and packaged in a convenient, easy to carry, heavy-duty 8 mil plastic sheathe. The Fast Pack is made to fit easily into the bed of a pick-up truck or service van and does not require two people to load or unload.

Features

- Available in 1/2" and 3/4", Red, Blue and White
- Pre-cut to 10' lengths and wrapped in a heavy-duty plastic sheathe
- Easy to load and unload into pick-up truck or service van
- Requires only one person to handle

Temperature – Pressure

Maximum Working Pressure:
 160psi (11 bar) @ 73.4°F (11 bar @ 23°C)
 100psi (6.9 bar) @ 180°F (6.9 bar @ 80°C)
 80psi (5.5 bar) @ 200°F (5.5 bar @ 93°C)

Specifications

System shall be plumbed using Watts cross-linked polyethylene pipe, and all joints shall be made using Watts brass CrimpRing™ and/or Poly-alloy CrimpRing™ fittings using either the Watts copper CrimpRing™ or stainless steel CinchClamp™** crimping methods as outlined in the Watts Installation Guidelines.

Installation Note

WaterPEX® must be installed in accordance with all Watts WaterPEX® installation procedures, including information provided in WaterPEX® installation manual and guidelines.

WaterPEX® Fast Packs are not approved for fire protection applications.

Connections

WaterPEX® is connected to WaterPEX® manifolds or barbed fittings using one of two connection systems, depending on manifold type or fitting system specified. See chart below:

✓ FITTING STYLE	DESCRIPTION
CrimpRing Fittings	Ductile Copper CrimpRing™ compressed over WaterPEX/CrimpRing fitting.
Compression Fittings	Brass Compression Nut tightened around WaterPEX® and CompNut™ fitting.

**WFPF
10ft. Fast Pack Bundle**

Approvals

- Manufactured in accordance with American Society for Testing and Materials (ASTM International) F876 and F877 to SDR-9 dimensional standards
- Listed by the NSF International to NSF Standards 14 and 61 for use in potable water systems
- Listed by NSF International to be in compliant to the Uniform Plumbing Code
- Labeled B137.5 which indicates that it is compliant to the CSA Standards B137.5

*The wetted surface of this product contacted by consumable water contains less than one quarter of one percent (0.25%) of lead by weight.

**Note: Watts WaterPEX CinchClamp™ fittings should not be used with wrought copper PEX fittings.

Watts product specifications in U.S. customary units and metric are approximate and are provided for reference only. For precise measurements, please contact Watts Technical Service. Watts reserves the right to change or modify product design, construction, specifications, or materials without prior notice and without incurring any obligation to make such changes and modifications on Watts products previously or subsequently sold.
