

Pure Water Visual Test Kits

Watts® Pure Water Visual Test Kits provide a quick, portable, and convenient way to measure some of the most common water quality test parameters anywhere at any time. Accurate chemistry, simple to read comparator cards with instruction, and expandable carrying case allows for testing on site without having to take water samples back to a chemistry laboratory.

Individual Visual Test Kits

ORDERING CODE	MODEL NUMBER	PARAMETER	TEST TYPE	RANGE (PPM)	# TEST
7100700	PWVTTOTALIRON	Total Iron (Fe+3) Kit	Visual Comparator, Colorimetric	0-9	≥ 100
7100701	PWVTFERROUSIRON	Ferrous Iron (Fe+2) Kit	Visual Comparator, Colorimetric	0-9	≥ 100
7100702	PWVTMANAGANESE	Manganese Kit	Visual Comparator, Colorimetric	0-10	≥ 100
7100703	PWVTTOTALALK	Total Alkalinity Kit	Visual Comparator, Colorimetric	0-500	≥ 100
7100704	PWVTpH	pH Kit	Visual Comparator, Colorimetric	6-8	≥ 100
7100705	PWVTCHLORINE	Chlorine (Free & Total) Kit	Visual Comparator, Colorimetric	0-6	≥ 100
7100706	PWVTHARDNESS	Total Hardness Kit	Visual Drop Count, Titrimetric	0-500/0-30gpg	≥ 100
7100707	PWVTFILOXORP	Filox ORP Simple Test Kit	Visual	NA	≥ 100
7300782	Meter TDS	TDS Meter 0 - 9990 ppm	Digital	0 - 9990	N/A

Individual Kits contain all necessary reagents, comparator card, syringe, cuvettes, and instructions to perform measurements

*Comparator and carrying case sold separately
