Safety-Set®

Positioning System

Safety & Code Compliance

Safety-Set® is designed to return caster-mounted kitchen equipment to a specific location after cleaning or maintenance. Often required for code compliance, positioning systems like Safety-Set ensure that gas equipment is situated beneath the fire suppression or ventilation systems.

The new and improved Safety-Set features an antimicrobial additive that inhibits the growth of harmful bacteria, mold and mildew.

CODE ALERT   NFPA Codes 17A and 96 require that a means be present to ensure cooking equipment is always positioned in its design specified location in relation to the fire suppression and ventilation systems during cooking operations.

Recommended Applications

- Gas & Electric Cooking Equipment
- Holding & Warming Carts
- Food Transportation Carts
- Salad Bars
- Caster-Mounted Refrigerators
- Banquet Carts

Importance of Consistent/Proper Equipment Placement

- Ensure that gas equipment is situated beneath fire suppression or ventilation systems
- Saves time
- Increase kitchen efficiency
- Easily return caster-mounted kitchen equipment to a specific location after every cleaning or maintenance

Ordering Instructions

The Safety-Set wheel positioning product can be ordered individually or with the Blue Hose Kit.

The Safety-Set model name is "PS" and the ordering number is 0241002.

When ordering the Safety-Set with the Blue Hose kit, simply add the letters "PS" to the end of the model number.

Benefits

- Can be used with all caster-mounted equipment including cooking appliances, warming carts, salad bars, and refrigerators
- Crush Resistant
- Antimicrobial additive inhibits the growth of harmful bacteria, mold and mildew
- Resistant to oils and greases
- Open-floor design allows appliance to rest level on the floor to ensure even cooking

Features

- Compatible with 3", 4", 5", and 6" casters
- Certified to NSF/ANSI Standard 169 – Special Purpose Food Equipment & Devices
- Flexible, tough injection molded Thermoplastic Polyurethane (TPU) with an Antimicrobial additive
- Able to withstand 1,000 PSI of crush pressure

Installation Method

- Each Safety-Set system includes a 1/4" thumb screw hardware pack for your convenience
