

**MS-810**

Tag: \_\_\_\_\_

**Trap Seal Primer**

**SPECIFICATION:** Watts Drainage Products MS-810 all brass trap seal primer with integral vacuum breaker, 1/2"(13) copper sweat inlet and outlet connection, and 1/2"(13) IPS drip line connection.

**FUNCTION:** Installed in cold water supply line to provide intermittent water supply to floor drain trap to ensure a constant trap seal.

**OPERATION:** Rates of flow greater than 1.5 GPM(US) when installed in a horizontal supply line will cause poppet to raise from seat and allow a metered amount of water to enter trap supply line. Closing of valve will cause poppet to reset. Air gap ports on each side of valve provide for visual inspection of flow from primer to trap and acts as a vacuum breaker.
